WORK EXPERIENCE

Zillionizer Ltd

Software Developer • 2023 - Present

- Proficiency in different stacks to ensure the ability to deliver high-quality solutions.
- Dedication to understanding and meeting client expectations drives every project.
- Expertise in various technologies guarantees the delivery of superior solutions that surpass client requirements.
- Develop and execute unit tests and perform system testing to ensure software quality

Andela TTL(Technical Team Lead)

Software Trainer • Dec 2022– Present

- Provide mentorship and guidance to trainees at TTL, focusing on improving their technology skills.
- Prioritize instruction in JavaScript, TypeScript, and standard HTML, essential skills for modern web development.
- Deliver clear explanations of concepts, ensuring trainees understand fundamental principles.
- Offer practical examples to reinforce learning and demonstrate real-world application of concepts.
- Provide hands-on support to trainees, assisting them in applying learned skills and troubleshooting challenges.
- Aim to help trainees establish a solid foundation in JavaScript, TypeScript, and HTML to support their future growth and success in the field of technology.

KIVU Cold Group

Frontend Software Engineer • Jan 2022 - Aug 2023

- Developed and maintained software applications
- Working with designers to structure professional application
- Responsiveness and well-clear cross-platform
- Transform web into mobile application

Monga Technology Ltd

Apprenticeship • Aug 2022 - Nov 2022

- Utilize expertise in React with TypeScript and React Native to develop robust applications at Monga Technology.
- Seamlessly integrate frontend technologies (React, TypeScript, React Native) with backend systems to ensure smooth and efficient operation of applications.
- Ensure that frontend and backend components work together cohesively to create unified and efficient applications.
- Contribute to the creation of applications that are not only robust but also scalable, capable of handling growth and evolving requirements.

ATLP(Andela Technical Leadership Program)

Trainee • 2021 - 2022

- Actively engage in learning and enhancing knowledge in frontend and backend development using JavaScript and TypeScript.
- Focus on mastering both frontend and backend technologies to become a proficient full-stack developer.
- Specialize in building responsive applications that adapt seamlessly to various devices and screen sizes.
- Aim to contribute effectively to the development landscape by staying updated on industry best practices and emerging trends.
- Strive to master the intricacies of JavaScript and TypeScript technologies to develop high-quality, efficient solutions.

EDUCATION

Bachelor of Science in Information Technology

University of Kigali • 2023 - present

Diploma in Information Technology

IPRC Tumba • 2018-2021

CERTIFICATIONS

Certified Software developer

Andela Technical Leadership Program. • Nov 2022

Certified Node js

HackerRank • 2021
